Department of Commerce

Annual Report 2022-23

The academic year 2022-2023 began with a strategic overview and vision for the year and the discussion stressed on the need for identifying the stakeholder's expectations [students, parents, employers & society]. Faculty teams deliberated on the required strategies, processes, capabilities and appropriate performance measures to realize the vision. The annual report of this year in review reflects in a variety of ways how the department has connected to its vision, primarily at three different levels- faculty development, curriculum and student development. Significant achievements worth mentioning belong to the area of faculty development. The faculty learning circles provided a platform for professional and intellectual dialogues while on the other hand FDP, and QIP raised their curiosities about various concepts and led to widened and strengthened intellect.

In the area of research, the importance of producing good quality publication was enunciated and the faculty members were directed from time to time to achieve the same. One faculty member was Registered to Ph.D. this year, taking the total number of Ph.D holders in the department to Six.

With respect to students, the focus was to introduce new teaching methodology that would engage them more thoroughly and enhance the learning experience. Many student-centric initiatives were introduced. The peer learning system was introduced for all the first-year classes. Groups were made blending a mix of gender, learning abilities, language and region. Advanced learners were identified as group leaders to facilitate learning of group members within and

outside class-rooms. Leaders directly connect with the class/subject teachers with problems of individual group members that were addressed appropriately. This peer learning exercise proved to be advantageous in two ways- firstly the students benefitted from the collaborative and cohesive learning and secondly the teachers were able to focus on mentoring. Student mentoring and attendance follow was continuously monitored by all class teachers which reflected in their attendance percentages and performance in examinations.

New initiatives were taken on the students support front. For instance, all faculty members were appointed as mentors to serve and guide the students with special needs and likewise to cater to the students of international origin. For the students who had back logs, special coaching and remedial classes were arranged which in turn helped them to clear the papers and complete the programme within the stipulated period.

A landmark achievement was the MoU signed with Sujata Institute of Computer, Pune. The programme was offered to the B.Com students to pursue the Advance Excel/Tally with GST/E-Filing certification which is highly recognized among Excel globally. The coaching by industry experts was undertaken in the Offline Mode and was open to both the students and faculty members.

Similarly, the students were also guided on how to choose the topic, what should be its objective, what should be the hypothesis, how to choose the sample size while writing the research paper. Students were asked different questions on their research topic. Also IQAC Co-ordinator Dr. Rane guided the students on how to write a research paper.

IQAC Coordinator Dr. Sapana Rane, Dr. Meghna Bhosale, and Other professors of commerce department were present to this competition. This competition is organized by Head of the Commerce Department Dr. Dakle S. P.

Career guidance in Association with Will Foundation (22-11-2022)

Career guidance plays a very important role in the lives of all individuals, as it helps in setting future goals and chooses careers. Career guidance is much needed service to those who did not plan for their future at an early stage; more should be done to assist the younger generations in personal career development. When Under Graduate students have a clear

understanding of the best career choices for them, end result is better planning, more college enrollments, and a more productive society for the future. For this, Will Foundation is playing an important role by conducting career guidance seminars to the college students

In this workshop we have planned to make students understand different career opportunities, procedure to appear those careers, different competitive exams and also planned to make them to understand the importance of having goal and passion and hard work to achieve the desired goal. For that we have involved some social games and shown motivational video clips to the students who all were participated in the workshop.

Guest Lecture on Entrepreneurship

Guest Lecture connected on 7th January 2023. The speakers were Dr. Ravindra Utgikar (Vice President, Carports Strategy & Marketing Praj Industries Ltd.

The session started with introduction to “entrepreneurship”. How one should be passionate about making their ideas work. The duo discussed how starters need to have everything properly planned before start. The speakers also spoke about the prerequisites of starting a business and running it in a profitable manner. All this was explained by discussing start-up stories of Paytm, Fresh menu, Flipkart, Ola, Uber, Swiggy as well as their own journey. They also discussed different strategies which entrepreneurs are making to attract customers like free deliveries, exchange policies, discounts through their online apps, concessions on first order etc. Students wanted to know how to spot opportunities and how their education helped the young entrepreneurs with planning, financing and managing their businesses. They conveyed the importance of proper planning and structured learning through education. A short quiz on famous personalities was also well received by the students. The session ended with a question answer round. The session was informative and interactive.
