Department of Commerce
Annual Report 2023-24**

The academic year 2023-2024 began with a strategic overview and vision for the year and the discussion stressed on the need for identifying the stakeholder's expectations[students, parents, employers & society]. Faculty teams deliberated on the required strategies, processes, capabilities and appropriate performance measures to realize the vision. The annual report of this year in review reflects in a variety of ways how the department has connected to its vision, primarily at three different levels- faculty development, curriculum and student development. Significant achievements worth mentioning belong to the area of faculty development. The faculty learning circles provided a platform for professional and intellectual dialogues while on the other hand FDP, and QIP raised their curiosities about various concepts and led to widened and strengthened intellect. In the area of research, the importance of producing good quality publication was enunciated and the faculty members were directed from time to time to achieve the same.

New initiatives were taken on the students support front. For instance, all faculty members were appointed as mentors to serve and guide the students with special needs and likewise to cater to the students of international origin. For the students who had back logs, special coaching and remedial classes were arranged which in turn helped them to clear the papers and complete the programme within the stipulated period.
